THE ADVANCED SKIN COLLECTION

Skin Rejuvenation

COLLAGEN INDUCTION THERAPY (Skin Needling) ⌚ ⚡ ☀️ 💧 \$269

Skin needling creates micro wounds to the dermal layers of skin to stimulate your own repair mechanisms leading to an increased production of collagen and elastin. Red LED is used prior to the needling session to charge cells and boost collagen synthesis.

Add Decolletage \$99

PRP INTENSIFIER (add to skin needling treatments only) ⌚ ⚡ \$149

Our qualified technician will gently draw your blood and then separate the platelet rich plasma in a centrifuge. This process extracts the plasma rich in growth factors to amplify collagen growth.

TIXEL REJUVENATION ⌚ ⚡ ⚡ ☀️

Tixel is a non-ablative fractional skin rejuvenation system. A great alternative to laser as it uses direct heat rather than light-based technology to resurface and tighten. Tixel treats delicate facial skin, including eyelids, under eyes, neck and decolletage. Tighten skin, treat fine lines and sun damage with minimal discomfort and downtime. This treatment is safe and effective on all skin types.

Lift & Tighten

HIGH INTENSITY FOCUSED ULTRASOUND (HIFU) ⌚

HIFU utilises micro-focused ultrasound energy to instantly contract collagen fibres and promote long term collagen growth for a natural, lifted look without the downtime. A popular choice of treatment for lifting and tightening the jowls, cheeks and brows or defining the jawline.

Neck Lift \$699
Jawline Contouring \$399
Brow Lift \$169

RADIO FREQUENCY SKIN NEEDLING ⌚ ⚡

RF skin needling uses radiofrequency and minimally invasive micro needles that deliver precise energy into the deeper layers of the skin. RF skin needling stimulates the production of new elastin and collagen as well as tightening existing elastin fibres. Ideal for skin lifting, tightening and rejuvenation. This treatment is safe and effective for all skin tones with minimal downtime.

Acne Solutions

Our acne solutions can help during an acne breakout or in the treatment of post acne scarring. For more treatment options for the management of active acne, book a consultation with one of our Dermatologists.

OXYGENATING ANTIBACTERIAL TREATMENT ⚡ 💧 \$269

Skin needling at an epidermal depth is effective in treating congested skin. By oxygenating blocked pores, it aids in reduction of c.acnes bacteria. LED blue light is used in this treatment to aid in killing bacteria.

BBL FOREVER CLEAR ⚡ ✂️ single \$350 | 3 pack \$950

Broadband Light (BBL) therapy is effective at treating mild to moderate acne with the use of infrared blue and yellow energy to reduce oil flow, kill acne causing bacteria, reduce pore size and improve post inflammatory redness. Ideal for both adult and teen acne sufferers. Multiple treatments are usually needed.

EXCEL V+ ACTIVE ACNE TREATMENT ⚡ ⚡ single from \$350 | 3 pack from \$950

For the treatment of mild to moderate inflammatory acne and acne scars, with the use of 1064nm wavelength laser energy. The laser light is absorbed by the bacteria and oil in the pimples, reducing their size and improving the appearance of the skin. The laser also stimulates collagen production, which helps to reduce the appearance of acne scars. Multiple treatments are usually needed.

DERMAL FILLERS 🕒⚡

from \$599

Dermal fillers help to restore volume, smooth out wrinkles and enhance facial contours by injecting a hyaluronic acid-based gel into the skin. It can be used to plump up lips, fill in wrinkles and hollow areas, sharpen the contours of your cheeks and jawline and provide a more youthful and refreshed appearance.

PDO SMOOTH THREADS 🕒⚡

from \$599

PDO Smooth Threads is a non-surgical treatment that uses fine, absorbable threads to lift, tighten and rejuvenate the skin. The threads are inserted under the skin with a needle, providing a gradual lift and tightening effect, while stimulating collagen production for long term results.

HYALURONIC ACID BIO-STIMULATOR 💧🕒⚡

\$849

A new injectable treatment that uses a high concentration of hyaluronic acid to deeply hydrate and revitalise the skin, while also stimulating collagen production for a more youthful, radiant appearance. It is a versatile treatment that can be used to improve skin texture, elasticity, overall tone and hydration. It is a popular treatment on the face and backs of hands.

PLATELET RICH PLASMA INJECTIONS (PRP) 💧🕒

PRP utilises your own blood plasma, which is rich in growth factors, to promote healing and rejuvenation of the skin. The treatment involves extracting a small amount of your blood, processing it to concentrate the platelets and then injecting the resulting PRP back into your skin, harnessing the power of your own platelet cells. This treatment is used to improve the appearance of wrinkles, fine lines, acne scars and age related skin damage. It can also be injected into the scalp to promote hair regrowth in both men and women with androgenic alopecia.
